THERMAGLAS & ULTRATHERM SUPERIOR PERFORMANCE LOW-E GLASS

CustomGlass
Professionals in Glass

www.customglass.co.uk

A THERMAGLAS Argon filled unit will perform 145% better than a standard double unit. THERMAGLAS can be used in double glazing or triple glazing.

Stay Warm & Save Energy with our High Performance Low-e Glass Options

THERMAGLAS and ULTRATHERM are produced by one of the world's largest flat glass manufacturers. Millions of homes & commercial buildings throughout Europe and the UK are already enjoying the benefits of THERMAGLAS and ULTRATHERM.

With their high performance coatings, THERMAGLAS and ULTRATHERM reflect the heat that your property heating system generates back into your room. With the most neutral coating in the world, THERMAGLAS and ULTRATHERM give a clarity of appearance unlike other low-e glasses which have a hazed effect. Environmentally friendly due to lower carbon dioxide emissions which means that less energy is used to heat your property. Ensures compliance with Document L building regulations. THERMAGLAS and ULTRATHERM units carry a 10 year guarantee and comply with BS EN 1279

U-Values for various glass & spacer combinations							
Double Glazing	Cavity Width in mm						
	8	10	12	14	16	18	20
Clear / Argon Gas / Thermaglas	1.7	1.5	1.3	1.2	1.2	1.2	1.2
